

*The NHSaves@Work/  
Large Business Energy Solutions  
Program has been developed to  
provide commercial and industrial  
customers with financial incentives  
to retrofit aging, inefficient  
equipment and systems with  
energy efficient technologies.*

*The Large Business Energy  
Solutions Program can provide  
you with rebates and technical  
services that will facilitate the  
identification and installation of  
premium efficient equipment.*

*The program is tailored to the  
specific needs of your business, and  
will help lower your energy costs,  
improve your working environment  
and increase your profitability.*

*The mission of NHSaves  
is to advance the efficient  
use of energy, while caring  
for the environment and  
promoting economic  
development in  
New Hampshire.*

*NHSaves means you  
and your electric utility, working  
together to save  
energy, reduce  
costs, and protect  
the environment.*

## Improve Energy Efficiency, Save Money, and Enhance Your Bottom Line

Public Service of New Hampshire has developed the NHSaves@Work/Large Business Energy Solutions Program, which offers prescriptive and custom rebates designed to help you invest in energy efficient retrofit projects. This program is tailored to the specific needs of your business, and is designed to help improve your energy efficiency, increase productivity, and make your business more profitable.

The Large Business Energy Solutions Program is primarily targeted toward customers with an average monthly billing demand of at least 100 kilowatts (kW). Pre-approval by your account representative is required.\*

Rebates are available for a wide array of energy efficient technologies, including:

- Energy Efficient Lighting Conversions
- Energy Management Systems
- Premium Efficient Motors
- Variable Frequency Drives
- Custom Energy Efficiency Measures.

PSNH is prepared to ensure your project takes advantage of the latest advances in energy efficient equipment and design practices. To find out more, go to [nhsaves.com](http://nhsaves.com) or contact your PSNH account representative at 1-800-662-7764.

# Qualified Technical Assistance and Educational Support

## Eligible Measures

- ♦ Energy Efficient Lighting Conversions
- ♦ Lighting Controls

- ♦ Energy Management Systems
- ♦ Variable Frequency Drives
- ♦ Premium Efficiency Motors
- ♦ Custom Energy Efficient Measures

## Technical Services

- ♦ Design Reviews
- ♦ Identification of Efficiency Opportunities
- ♦ Selection of Energy Efficient Equipment
- ♦ Detailed Electrical Energy Audits
- ♦ Review of Vendor Proposals
- ♦ Project Evaluation
- ♦ Compressed Air System Support
- ♦ Educational Programs & Seminars

As part of the Large Business Energy Solutions Program, Public Service of New Hampshire works with you and your engineers, from project inception to completion, to evaluate energy efficient opportunities.\*\* Projects are thoroughly evaluated to help you select those opportunities that best meet your business needs.

Public Service of New Hampshire is able to bring a significant level of technical expertise to your project, including:

- ♦ Design Reviews
- ♦ Identification of Efficiency Opportunities
- ♦ Selection of Energy Efficient Equipment
- ♦ Detailed Electrical Energy Audits
- ♦ Review of Vendor Proposals
- ♦ Project Evaluation
- ♦ Compressed Air System Support
- ♦ Educational Programs and Seminars

Through educational programs and seminars, we provide an opportunity for you to learn more about energy efficient technologies and how best to apply them to your business. For example, the *Building Operator Certification* course is designed to raise the understanding and skills of personnel responsible for building maintenance and operation.

Costs, savings, feasibility, and returns-on-investment are thoroughly reviewed so that you can select the energy efficient retrofit measures that best meet your business criteria.

---

***NHSaves@Work will help you increase energy efficiency, improve productivity, and increase your company's profitability.***

---

For more information, go to [nhsaves.com](http://nhsaves.com), or contact your Public Service of New Hampshire account representative.

\* Participating utilities may have a limit on the rebate dollars available to any one customer.

\*\* Technical assistance services generally require a customer co-payment of 25%.
